

## RS232 To TTL Serial Converter Module DB9 Connector For Arduino

### Feature:

It is widely used in radio modification, phone flash, XBOX360 flash, GPS ,vehicle detection, DVD flash, hard disk repair set-top box upgrade  
It can be used to program STC MCU, NXP MCU, Renesas MCU, STM32 MCU, N+2EC MCU

### Specifications:

Communication chip: domestic MAX3232  
Port: TX RX VCC GND  
Working voltage: 3.3V-5.5V  
Size: 30mm x 28mm
