

> Green Energy Chargers

These chargers are designed to help reduce damage to the environment. We now include our new solar charger with USB or solar charging. This unit not only offers economical charging but can use the sun's energy for charging, thereby reducing electricity use.

SBC3001

Charges:

2 or 4 × AA

Ni-MH

2 × AAA

Ni-Cd

NEW! Solar Charger

Uses sunlight to charge batteries!

Includes:

USB

SPECIFICATIONS

Charging Currents
200mA (for 2 batteries)
100mA (for 4 batteries)

USB output
DC 5.0V --- 350mA

MAIN FEATURES

- 3 Independent Charging Channels Charges up to 2 pairs of AA batteries or 1 pair of AAA batteries.
- Reverse Polarity Protection Prevents damage to the charger if the battery is improperly inserted.
- Clean Energy No need to use electricity, just use the sun's rays for power
- Saves Money Reduces electricity consumption and purchases of single cell batteries.
