KY-008 Laser x Laser Detector

Features:

KY-008 Laser
• Wavelength: 650nm
• Operating voltage: 5V
• Compatible with Arduino

Laser Detector
• Operating voltage: 5V
• Digital output
• Arduino compatible
• To avoid interference from light, it is recommended operating in darker environment

* Avoid direct eye exposure to laser

Size:
33 x 17.8 x 20.3mm
