

K-Type Thermocouple Probe

Type no. : TP - 01

Plug construction: Standard flat plug

Design features: Exposed contact thermocouple, Teflon coated insulation isolation

Measuring range: $-50 \sim 204^{\circ}\text{C}$, $-58 \sim 399^{\circ}\text{F}$

Application: Suitable for air and gas rapid measurement, not suitable for liquid measurement

Thermal response time: <5 seconds

Wire length: 1 m (glass fiber wire)
