KS0430 Keyestudio DHT22 Temperature and Humidity Sensor

Introduction:

This DHT22 digital temperature and humidity sensor is a composite Sensor which contains a calibrated digital signal output of the temperature and humidity.

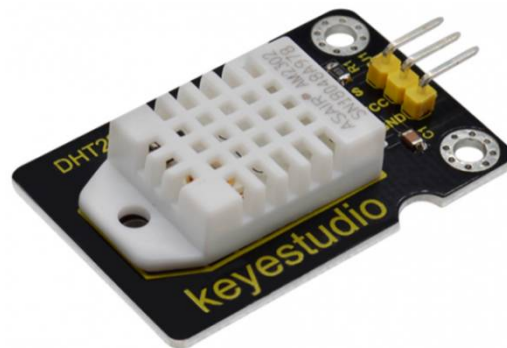

The dedicated digital modules collection technology and the temperature and humidity sensing technology are applied to ensure that the product has high reliability and excellent long-term stability.

Specification:

Supply Voltage: 3.3~5V

Current: >10mA

Interface: Digital
