

PUSH BUTTON

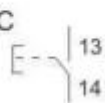

PB-ADP2-B211H29

DESCRIPTION

A compact control station featuring Green START and Red STOP buttons. Designed for motor and machinery control in industrial applications. Rated up to AC 380V / DC 220V, compliant with IEC 60947-5-1. Its robust construction ensures stable performance in demanding industrial environments, making it an ideal choice for motor control panels, conveyor systems, and workshop equipment.
