

Round embedded thermometer and hygrometer, Acrylic enclosure

Model: 170132 / 170132**Function overview:**

1. LCD display
2. Opening size diameter 41mm (measurement has small error)
3. The shape diameter is 45.2 (the measurement has a small error)
4. Weight: 25 grams (without battery)
5. Humidity display
6. Humidity measurement range 10% to 99%
7. Humidity display resolution 1%
8. Humidity sampling period 10 seconds (1 minute)
9. Humidity measurement accuracy $\pm 5\%$
10. Rated voltage DC1.5v (1 AG13 button battery)
11. Temperature measurement range -10 to 50
12. Temperature measurement accuracy ± 1 degree (at normal temperature)

Battery installation

- Flip to the back of the product;
- Push the battery cover in the direction indicated by the arrow;
- Put two LR44 button batteries into the battery compartment

Installation and operation**Embedded installation**

Electronic products have errors, do not buy high requirements, the product humidity is about 5% positive and negative at room temperature, the temperature is about plus or minus 1 degree
