

GLOVELAMP

Bringing Light to Your Fingertips

GLOVELAMP

IMPORTANT:

For best results, wear LEDs on the SIDE of the index finger and the SIDE of the thumb.

Activate your Glovelite:

1. Remove screw and lift battery cover.
2. Remove plastic battery tab.
3. Replace cover— make certain of correct alignment to preserve waterproof seal.
4. Replace screw.

Change your Batteries:

1. Remove cover as above.
2. Slide batteries out carefully – do not bend contacts.
3. Replace batteries with two-CR2016 or one-CR2032.
4. Replace cover as above.
