

# Micro-porous atomizer metal sheet

The production technology of atomized sheets is mature, with uniform spray and large volume.

Pay attention to the front and back of the atomizer: the white piezoelectric ceramic sanitation is the front side, please install it upward.

Name	Micro-porous atomizer
Size (mm)	<b>Steel sheet 16</b>
Rubber ring (mm)	Rubber ring 20, thickness 3.5
Wire length	100mm
resonant frequency	108-110KHz
aperture	4-5μm
Number of holes punched	1100 hole
material quality	Piezoelectric ceramic cup + 304 stainless steel sheet
Terminal head	PH 2.0
weight	1.92g
