

High Power 40A Forward & Reverse Motor speed regulator 12V24V36V48V Motor Governor switch DC Brushed Motor Controller

Module: 40APWMMMD / 200289

PRODUCT FEATURES:

- Model: DC10V-50V DC speed governor
- 40A high power forward and reverse speed governor. Positive and negative polarity switch built-in two 80A high current relays
- Working voltage: 10V-50V
- Output voltage: linear under load
- Maximum current: 60A
- Continuous current: 40A
- Speed range: 0% — 100%
- Forward rotation: Yes
- Speed regulation method: Potentiometer (with switch)
- Speed regulation type: Current regulation
- Motherboard size: 100MM * 76MM * 28MM
- Net weight: 180g
