

FS400A-G1 Flow Meter

Description:

Note: The colour of the item may vary slightly due to photography and your own computer
Impeller inlaid stainless steel beads, always wearable.

Flow range: 1-60L/min

Interior diameter: 0.81"

Minimum rated working voltage: DC4.5 5V-24V

Maximum current: 15 mA(DC 5V)

Working voltage range: DC 5-18 V

Load capacity: 10 mA(DC 5V)

Operating Temp: 80°C, Operating humidity: 35%-90%RH

Allow compression: Water pressure 1.20 Mpa below

Storage Temperature: -25-+80°C

Storage humidity: 25%-95%RH

$F = 4.8 \times \text{units of flow (L / min)} \times \text{time (seconds)}$.

Connection:

Red Connect Positive;

Yellow OUT Connect signal output;

Black GND Connect Negative.

Suitable for water purifier, water heaters, credit card machines, water vending machines, coffee machines, smart card equipment, the boiler and other flow measurement devices!

Caution:

Prohibit dramatic impact and harsh chemicals

Prohibit impact, shock, vibration

Vertical installation, the inclination is no more than 5 degrees.

Media temperature should not exceed 120degree.
