

15mA 5V Optical Infrared Water Liquid Level Sensor Control Switch Favorable Level Sensors

IRSEN / 190316

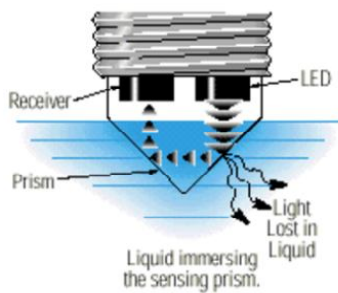

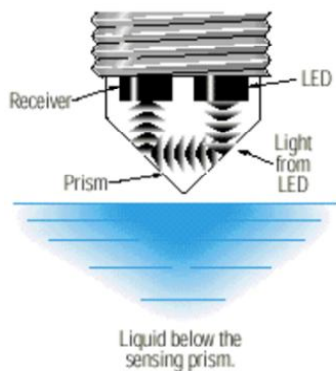

Features: No mechanical moving parts, high reliability
High precision level control
Meet the safety standard requirements

Easily mounting method with locking nut.
measurement range :single-point measurements
Equipped with **50 cm cable** length.

Measuring accuracy :1MM
Current output :15mA
Power voltage : 5v

Application :

Humidifiers, heaters, Pumps, bathtubs,
sanitary ware, medical equipment
and other level control equipments

Connection:

- 1 White
- 2 Blue
- 3 Yellow
- 4 Red
