

AVRISP USBASP STK500 10Pin to 6Pin Adapter board Interface Converter Pinboard

Module: MD0240

Feature:

1. Can be used AVRISP USBASP STK500 and other programming standard 10PIN interfaces to standard 6PIN Interface Converter
2. Can be used to AVR serial MCU development board download interface converter
3. Can be used for Arduino development board ISP Interface Converter
