

Name: Nylon Cable Fixing Head MG Tooth

Brand: Yonglin Plastic Co., Ltd. of Liucheng City

Item Number: MG

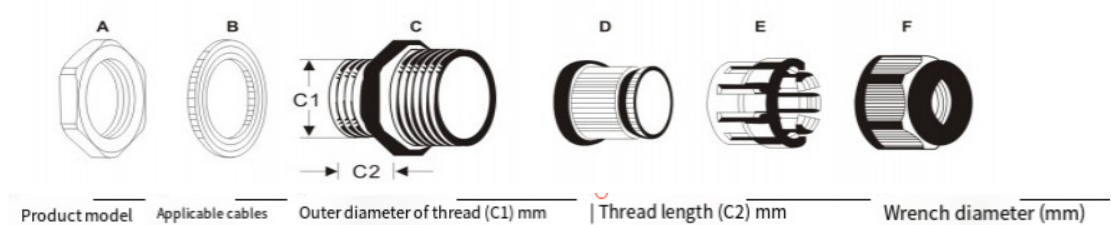

Color: Black, Gray, and other colors can be customized

Product Material: A.C.E part is made of UL-approved nylon PA66 (fire resistance grade UL94V-2); (customizable with UL-approved V-0 fire resistance grade nylon raw material); B.D part is made of EPDM weather-resistant rubber. (customizable with cold-resistant, high-temperature-resistant rubber; resistant to high acid and alkali, resistant to chemical and anti-corrosion rubber).

Thread Specification: MG Tooth

Working Temperature: Static -40°C to 100°C, or can withstand heat up to 120°C;
Dynamic -20°C to 80°C, or can withstand heat up to 100°C.

Product Features: Special clamping claws and clamping rings are designed, providing a wide clamping range for cables, with extremely strong tensile strength. It is waterproof, dustproof, resistant to salt, resistant to weak acids, alcohol, oil, grease and general solvents.
