

Single phase voltage regulator, 220v, contact type, 0-300V, adjustable supply voltage regulator

Model: TSG1000VA / 180430

General:

STG series single phase contact type voltage regulator (Variable transformer) is an new type products with quadrangle outline and small handwheel, this series voltage regulator also have the advantage of good apperance, rational construction, no waveform distortion, small size, high efficiency, esay to use, reliable operation etc., the performance is more superior.

Application:

This kind of voltage regulator can be applied in industry, scientific experiment, public facilities and domestic appliances to achieve the goal of voltage regulating, temperature controlling, light regulating, power controlling and so on.

Product parameters

Model: STG-1000W

Name: Adjustable power regulator

Weight: 7.5KG

Maximum current: 4.5A

Maximum power: 1000W

Input voltage: 220VAC

Adjustable voltage: 0-300V

Frequency: 50 / 60Hz

Size: 220 x 195 x 165mm

Colour: Off Wite / Sky Blue

Temperature rise of the whole machine: $\leq 60^{\circ}\text{C}$
