

41C 300W titanium pot tin furnace D=100mm Lead free pure titanium alloy
P/N: 230256

Tin pot material: Titanium alloy
Overall weight: 730G
Depth of pot interior: 40mm
Maximum tin - holding capacity: 1500 grams
Lead length: 135mm
For reference only. Subject to the actual product!

PRODUCT INFORMATION

Model	11C	21C	31C	41C
Rated Power	100W	150W	250W	300W
Maximum Temperature	450°C	450°C	480°C	480°C
Melting Time	3 - 8min	3 - 8min	3 - 8min	3 - 8min
Solder Capacity	350g	600g	1200g	1500g
Inner Diameter of Solder Pot	38mm	50mm	80mm	100mm

Product Features

1. The temperature can be set arbitrarily within the range of 200 - 450°C.
2. The solder tank is made of corrosion - resistant stainless steel material, durable.
3. Simple to operate, it can heat up quickly and melt solder rapidly.
4. Easy to repair, with convenient replacement of components.
